Lovely custom-built mid-century modern home with so many lovely details--walls of windows bring the outside in. Cathedral ceilings, beamed ceilings, and lovely stonework give the home so much character. The open floorplan features an updated kitchen complete with granite counters and center-island and formal dining room area. The oversized living room has an impressive wood-burning fireplace and leads to the upper den as well as to your fabulous backyard. The primary suite is a lovely oasis with cathedral ceilings, a lovely new bathroom and a not-to-be-believed walk-in closet. The primary suite also leads to a delightful front porch, a wonderful place to enjoy your morning coffee. A hallway with a wall of windows lead to 2 additional bedrooms and another new gorgeous bathroom. The above-grade lower level features numerous windows, a lower-level den, a third new full bathroom, a large laundry room, and an unfinished room that serves as a large storage area, but could easily be finished into an additional bedroom. In addition to the 2-car garage, there is a covered carport and lots of parking. An additional surprise is a semi-finished room off of the carport that is plumbed to include a bath--with great possibilities such as a home office, guest suite, or home gym. Enjoy the peacefulness of a secluded backyard. New windows, new roof & new hot water heater.
